

STATEMENT OF PURPOSE

RS23467

This proposed amendment of Idaho Code Section 43-707A modernizes the existing statute by providing irrigation district patrons the option to pay their annual assessments through additional methods of personal or other nonguaranteed forms of payment commonly used and accepted by merchants and a variety of political subdivisions and agencies of the State of Idaho. Many irrigation district patrons routinely inquire of their ability to pay their assessments by credit or debit card, or other electronic means for convenience purposes. This proposed amendment authorizes districts to accept forms of payment that many find more convenient.

FISCAL NOTE

This legislation has no fiscal impact.
